

# The Purpose of Human Life

by Robert Schmid

There are only five kinds of living organisms in the universe. They are:

## The God-kind

- God Almighty, YHWH, and His WORD have existed ETERNALLY.
- God's purpose is to REPRODUCE Him-self through the **human-kind**.

## The Angelic-kind, CREATED individually by God

- The good angels are helpers and messengers of the true God.
- The bad angels (demons) are helpers and messengers of Satan the false god.

## The Human-kind

- Adam and Eve were CREATED by God in the image of God.
- Adam and Eve disobeyed the true God, and obeyed the false god Satan, and thereby became the spiritually BEGOTTEN children of Satan.
- All offspring of Adam and Eve came into existence through PROCREATION. Physically BORN of their human parents, and spiritually BEGOTTEN of their father, the false god Satan.
- “And the WORD *became* flesh.” Jesus was physically BORN of His human mother Mary making Him (fully) **human-kind**, and spiritually BEGOTTEN of His Father, the true God—YHWH, making Him (not yet fully) **God-kind**.
- Jesus lived, suffered, died, and was resurrected--BORN AGAIN, spiritually, of His Father the true God, making Him (fully) **God-kind** (no longer human-kind).
- The purpose of human life is to change from the **human-kind** to the **God-kind**. This is why BORN human beings MUST be BORN AGAIN to change from their spiritual father Satan, to their spiritual father God. After conversion, man will live, suffer, die and be resurrected—BORN AGAIN of their Father, the true God, making them (fully) **God-kind** (no longer human-kind).

## The Animal-kind

- REPRODUCE after their own kind

## **The Plant-kind**

- REPRODUCE after their own kind
